

Greetings!

This is **Cheftunes** and i made a little **Drumrack** to honor this awesome "**Vox Sample Kit Vol. 1**" from fellow Producer **TCustomz**.

This **Drumrack** is made for **Ableton Live Suite** and it is **free**!

Important: This is only the **Drumrack** to use with the "**Vox Sample Kit Vol 1**"! The **Samples** themselves **are not included** and must be **purchased** under the following **Link**:

<http://www.tcustomz.com/drumkits.html>

Once you went through the installation guide (PDF included) you will get:

- A Drumrack with 4 Drumcells to play the Vox Samples!
- A Sample Selector which allows you to choose from up to 100 Samples (70 stock +30 bonus) in every Drumcell!
- Built in Send and Return Effects like short verb, thight verb, simple delay, ping pong delay!
- Macro-controls for Pitch and Release of each Sample!

If you are not familiar with the process of creating 128s in Ableton Live i highly recommend watching this Dubspot-Tutorial first:

This will make the installation process a lot easier for you!
